

CATALOGUE 2000

2

TO MEET MARKET DEMANDS

We are pleased to present you the newest version of our catalogue.

The chrysanthemum market becomes more and more international. Differences in consumer taste, trading requirements and physical circumstances give rise to more and more varieties. This is a common feature of any market for consumer products, but the ability to cope with these demands is not always available. Because of its genetic structure, the chrysanthemum definitely has the ability to meet all market demands for varieties.

Consequent breeding programs, for which CBA is world famous, produce the right varieties and the rich choice, which provides our clients with competitive assortments.

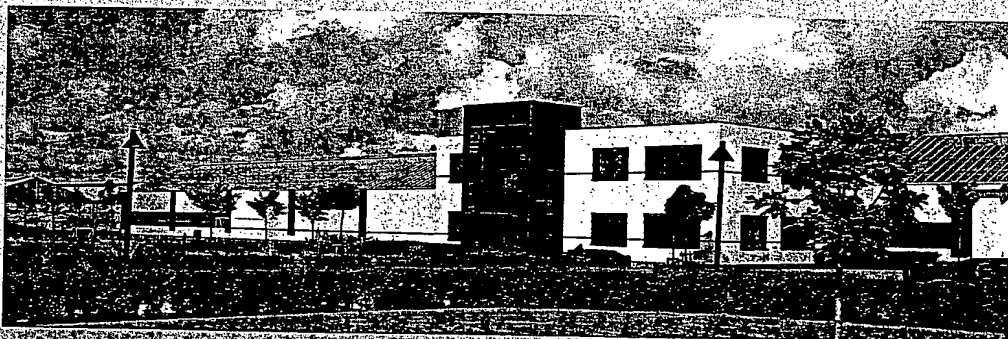

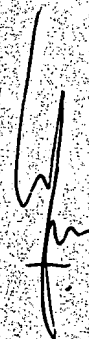

This catalogue does give you an insight in our product portfolio and our latest developments. Regarding the latter we would like to draw your attention to our spraychrysanthemum Flair, potchrysanthemums

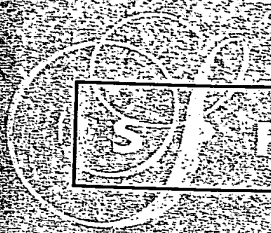

Bajimba and Hutch, disbudded chrysanthemums Resomee Dark, Resomee White and Revoir, santini's Bush and Bliss, our aster potplants Duke®, Diamond® and Dynasty® and cut asters Star White and Star Blue. In combination with its major propagators, shareholders Royal Van Zanten and Sunfield Holland, CBA can provide you with qualitatively the best material and growing consultancy. Please do not hesitate to contact us or one of these propagators.

We are looking forward to a successful continuation in 2002 with those growers and traders with whom we do already cooperate. We invite all others to contact us for free information and advice.

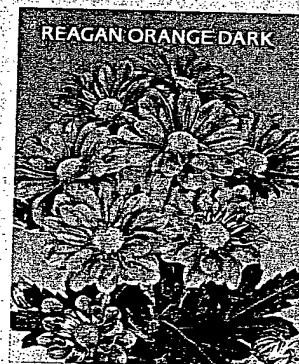

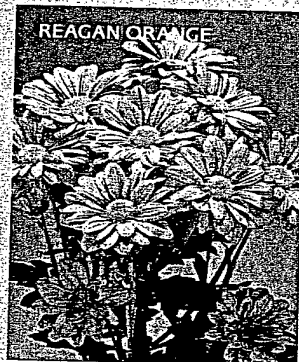

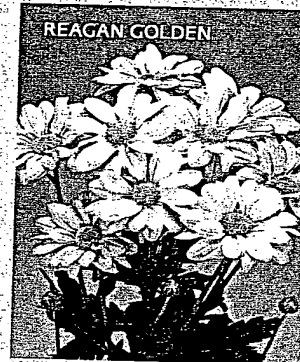

Rijsenhout, October 2001

Drs. Koert F. Jansen
Chairman of the board

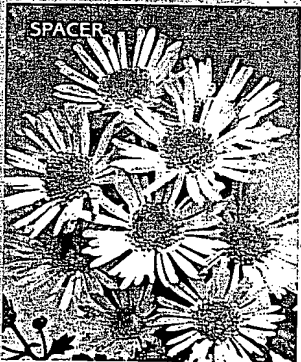

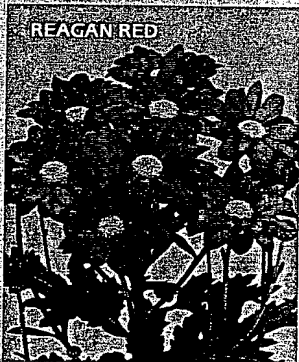

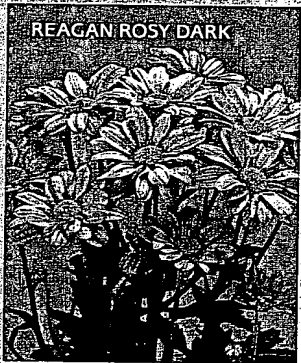

REAGAN ELITE DUTCH ANTHEM

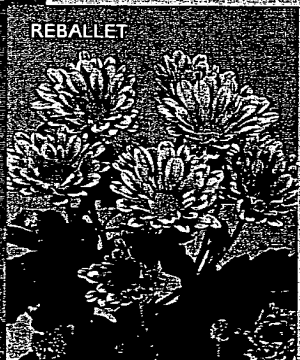

U M

Arrangements will never be the same again.
